

CHOICE

from Berkshire™

It's **CHOICE**®. The value tiered category of wipers offering all the performance consistency of higher priced wipers.

Best of all, **CHOICE**® is from **Berkshire**, the most trusted name in contamination control products. Which means quality you can count on. What's more, **CHOICE**® is backed by the **Berkshire** Guarantee - your money back if our wiper fails to perform according to specifications.

	CHOICE® 100 Sterile	65% Cellulose / 35% Polyester	

Packaging

All Berkshire wipers come in high quality chemical resistant packaging material that has been tested for cleanroom use. All wipers are doubled bagged for easy transfer and wipe down.

For Knitted Wipers, Berkshire offers wipers packaged in value and stacked configuration.

Value Packaging:

Value packaged product is placed into a bag with a cursory inspection. The sheet count is arrived at by weight. There is 0% difference in performance between a value packed and stacked packed product. There is however a significant cost savings in a value packaged wiper.

Stacked product:

Each wiper is inspected and stacked one on top of the other. The end result is a square pack that when opened one wiper at a time can be removed from the stack.

Non-standard Options

Whether a special size, packaging configuration, saturation level, or even a new substrate is needed, Berkshire can create custom products for special process requirements. Contact our Regional Technical Managers in order to learn more about creating a custom product.

Sterile Validated Options

For aseptic processing areas, Berkshire wiper material can be provided in a gamma irradiated validated sterile to a 10-6 sterility assurance level. Dry and pre-wetted versions available. See Sterile Brochure for more information.

Applications

- Breakdown cleans in fab and suite construction
- Oxidation, Metallization or CVD Deposition areas
- Chamber cleaning and CMP processing
- Stencil and other print roll cleaning applications
- Cleaning of medical device products
- Applying and removing cleaning and disinfecting solutions
- Steam autoclavable for aseptic environments

CHOICE® 700

100% continuous filament knit polyester and ultrasonically sealed edge for reduced fiber contamination. Laundered and packaged in ISO Class 4 (Class 10) cleanroom

- Most economical knit wiper in the CHOICE® category
- Critically low particles, fibers, ions and extractables
- High abrasion resistant
- Excellent absorbency
- Chemically compatible with IPA, Acetone and other solvents
- Lightweight material design reduces actual cost in use compared to heavier weight products

CHOICE® 900

100% continuous filament knit polyester and ultrasonically sealed edge for reduced fiber contamination. Laundered and packaged in ISO Class 4 (Class 10) cleanroom

- Critically low particles, fibers, ions and extractables
- High abrasion resistant
- Excellent absorbency

CHOICE® Sealed Edge Knit & CHOICE® Sealed Edge Knit Sterile

100% continuous filament knit polyester and ultrasonically sealed edge for reduced fiber contamination. Laundered and packaged in ISO Class 4 (Class 10) cleanroom

- High abrasion resistant
- Excellent absorbency
- Chemically compatible with common cleaning and disinfecting solutions including IPA, phenols, bleaches and quarternary ammonium compounds

Sterile Version

Designed for cleaning sterile surfaces and equipment during aseptic processing. Excellent for cleaning sterile laminar air flow units, barrier isolators and bio-containment units and final wipe down of medical devices

- Gamma irradiated and sterile validated to a 10⁻⁶ Sterility Assurance Level per AAMI guidelines
- Header style packaging with Package Integrity testing
- Lot number on each pack
- Certificate of Sterility with each case and available on the web by lot number 24/7. Details: Expiration Date,
- Radiation Dosage, Lot Information, Meets cGMP requirements for traceability
- Passes LAL test for endotoxins <20 EU/device

Product	Number	Size	Shts/pk	Pks/cs
CHOICE® 700	CH709.14	9x9" (23x23cm)	150	14
CHOICE® 900	CH909.10	9x9" (23x23cm)	150	10
CHOICE® Sealed Edge Knit	CHK01.0909.8	9x9" (23x23cm)	150	8
CHOICE® Sealed Edge Knit	CHK01.0909B.8	9x9" (23x23cm)	150 (bulk)	8
CHOICE® Sealed Edge Knit Sterile	CHK01.ST.15	12x12" (30x30cm)	20	15

Critical Process Wipers

ISO Class 4-5
Cleanroom Class 10-100
EU Grade A-B

CHOICE® 800

100% continuous filament knit polyester, knife cut edge for reduced scratching potential Laundered and packaged in ISO Class 4 (Class 10) cleanroom

- Very low particles, fibers, ions and extractables
- High abrasion resistant
- Excellent absorbency
- Chemically compatible with IPA, Acetone and other solvents

Product	Number	Size	Shts/pk	Pks/cs
CHOICE® 800	CH809.10	9x9" (23x23cm)	150	10

Controlled Process Nonwoven Wiper

ISO Class 5-8
Cleanroom Class 100-100,000
EU Grade B-C

Applications

- General equipment wrap and wipe downs
- Cleaning of lab equipment
- General wiping in component prep, compounding and wash areas
- Applying and removing cleaning and disinfecting solutions and spill pick up

CHOICE® 100 & CHOICE® 100 Sterile

65% cellulose / 35% polyester hydroentangled nonwoven blend

- Excellent combination of the synthetic polyester strength and cleanliness with the absorbent characteristics of cellulose
- Smooth surface with excellent strength and durability
- High absorbency compared to typical cellulose / polyester nonwoven wipers can reduce actual wiper usage in spill or solution removal applications
- Low extractable levels and particle counts
- Chemically compatible with IPA, Acetone and other solvents
- Autoclavable
- Economical

Sterile Version

- Gamma irradiated and sterile validated to a 10-6 Sterility Assurance Level per AAMI guidelines
- Linear Tear Style
- Lot number on each pack
- Certificate of Sterility with each case and available on the web by lot number 24/7. Details: Expiration Date,
- Radiation Dosage, Lot Information, Meets cGMP requirements for traceability
- Designed for cleaning sterile surfaces and equipment during aseptic processing
- General wiping in component prep, compounding and wash areas
- General wipedowns in sterile gowning rooms
